
HYDRANT FLUSHING

The Cherry Valley and Rochdale Water District will conduct its hydrant-flushing program beginning **September 30, 2024 – October 10, 2024, in the Cherry Valley service area and between October 15, 2024 – October 25, 2024, will be the Rochdale/Oxford area.** District employees will flush hydrants daily between 7:00 A.M. and 2:30 P.M.

The purpose of the flushing is to remove sediment buildup in the water mains. Residents may experience some temporary discoloration of their water during this period. Allowing water to run by opening the kitchen cold water faucet for a few minutes will generally clear up this problem. The discoloration might stain your laundry, especially white materials. Therefore, we recommend that you avoid doing laundry while discoloration exists. A daily schedule can be viewed on the District's Website at www.cvrwd.com. If you have any questions, please call 508-892-9616.
